

EXPERIENCE

Google | New York, NY (Aug. 2019 – Present), San Francisco, CA (Oct. 2018 – Aug. 2019)

Engineer (User Experience & Machine Learning) – Google Cloud Oct. 2018 – Present

- Explore patterns in user behavior through neural nets and advanced visualization on cross-functional research team.
- Spearheaded the creation of development processes and workflows to increase team collaboration, prioritization, code quality and productivity which ultimately secured \$2MM+ of resource allocation and executive level support.
- Led full-stack development of research tools to explore critical user journeys across 56+ Google products; partnered with product teams such as Storage and Compute (highest revenue products in Cloud) and directly impacted product direction.
- Earned “strongly exceeds expectations” in both review cycles, typically reserved for the top 15% of employees.

Partner Technology Manager – Google Search

Dec. 2017 – Oct. 2018

- Managed 2 (part-time) employees; Held weekly 1:1s, delegated responsibilities and oversaw team deadlines.
- Served as the primary liaison between business and engineering units, translating customer needs into technical features.
- Earned “exceeds expectations” in both review cycles; fewer than 10% of employees are estimated to earn this rating in their first review cycle.

Bessemer Venture Partners | San Francisco, CA

Dec. 2018 – Present

Investment Advisor and Blockchain Specialist – Investing Team

- Recruited to join on a 6-month contract as an Entrepreneur in Residence working 1 day a week; promoted to Advisor (youngest at the fund) on an annual contract working 2 days a week, sourcing and diligencing early stage companies.
- Led Bessemer’s participation in \$3MM seed round for a decentralized computing company, Nebulous, led by Bain Capital.

Bakround | Remote (Nov. 2013 – Jan. 2017), San Francisco, CA (Jan. 2017 – Dec. 2017)

Nov. 2013 – Dec. 2017

Founding Engineer

- Started AI healthcare company in university and pursued full-time after graduate school.
- Led engineering, design and product roadmap; collected, prioritized and integrated customer feedback into platform.
- Helped raise \$1MM in seed funding, grew company to 17 employees, and generated \$10k in MRR from 8+ clients.

EDUCATION

Lehigh University | Bethlehem, PA

B.S. Integrated Business and Engineering; GPA: 3.86, Summa Cum Laude; Presidential Scholar
